

The experience was the most extravagant dental visit I ever had in my life. It was absolutely fantastic - 5 stars. The personnel, including the dentist (Dr. Jones), were very, very nice and the procedures were extremely thorough. I liked that we talked a lot - they get involved with the patients and treat them as individuals. They also placed a lot of attention to my specific preferences and comfort.

The place is just a dream and the hand massage was a very elegant touch. The technology involved surprised me, surpassing all expectations and previous experiences and knowledge of what a dental office could do/have. I have told everybody about it.

I went for a regular cleaning. I was looking for a closer dentist since my previous one was in North Dallas and I live in Frisco. Because they were so thorough and explained everything so well, they detected the need to replace some old work and we developed a plan to do this. I did not schedule another visit before leaving because I needed to check my agenda first. I will call soon, though.

Thanks and congratulations on being the Office Manager of such wonderful place!

Maristella A.
